Technical Skills

Proficient:

- J2EE • Spring • Java-Script • Angular
- MongoDB • SQL • Hibernate
- NET Framework

Working knowledge:

- Network Engineering • Distributed Systems
- Apache Kafka • Docker • Kubernetes
- Microservices • SOA • Linux

Soft Skills

- Punctual;
- Persistent;
- Hard working;
- Desire to learn;
- Interpersonal character.

Certifications

MICROSOFT CERTIFIED PROFESSIONAL

- Network Infrastructure Administration.

Writings

- **Technical author** - wrote edited and published:

"Think Sharp - Combinatorial Game Theory Made Clear".

Experience

VIAVI Solutions | JAVA SOFTWARE DEVELOPER

Nov. 2022 – present | București

Develop next generation platforms targeting hyper scale, high availability, cloud-native network applications for testing and monitoring purpose.

Technology Stack: Java 8SE, Spring, PostgreSQL, Hibernate, VMware tools.

LUXOFT | SOFTWARE DEVELOPER

Nov. 2021 – Dec. 2022 | București

Design and implement network applications for Avaya Aura Contact Center: cloud-based telephony and call control, voicemail and instant messaging, team engagement and conferencing, mobility features and emergency calling.

Technology Stack: Java 11, ApacheKafka, Kubernetes, Docker, Helm, JAX-WS, JAX-RS, InterSystems Caché DB, Protocol Buffers, Apache CXF, SIP and XMPP protocols.

INTERNATIONAL ALUMNI | SOTWARE DEVELOPER

Mar. 2020 – Jun. 2021 | Belgium

- Develop, maintain and support Java Web applications using Java and related tools;
- Analyze functional design and implement new functionalities based on given documentation using the latest Java technologies: J2EE, WildFly, MongoDB, Thymeleaf, SpringBoot, JAX-RS, Spring, RestTemplate, Jackson;

VALEO | JUNIOR SOTWARE DEVELOPER

Oct. 2019 – Feb. 2020 | Timișoara

- Developed Java systems from scratch using last technologies such as J2EE, Spring, MySQL, Hibernate, Thymeleaf, WildFly.
- Practiced Software Development and Scrum methodology to collect requirements, design, develop, implement, test and deploy project successfully.

WIPRO | JUNIOR TEAM LEADER

May. 2018 – Jul. 2019 | București

Drive the Ordering & Logistics process with the responsibility for logistics related tasks in the Nokia customer team for complete customer delivery.

- Lead a cross-functional team made up of 15 specialists.

MNC-NE | OPERATIONS ANALYST

Jul. 2008 – Jul. 2011 | Western Pomerania, Poland

Solved highly technical organizational problems by reviewing data and performance related to operational procedures.

- Analyzed system capabilities, studied alternatives and developed solutions.
